

Edel Soccer XP™ Pro

Edel Soccer XP™ Pro is a durable, hard-wearing system that owes its qualities to the unique TenCate fibre tapes. At first sight, the fibre looks identical to standard fibrillated fibres, but in reality it surpasses all other fibre tapes and even some monofilament yarns. Whereas standard fibres may split and lie flat, those of the Edel Soccer XP™ Pro system return to the upright, even after intensive use. This makes the Edel Soccer XP™ Pro system incredibly hard-wearing and unique of its kind!

The best alternative to nature

Product characteristics of EDEL SOCCER XP™ PRO

Edel Soccer XP™ Pro stands for:

- Optimum playing properties: a smooth and level pitch guaranteeing natural ball-roll, even after intensive use
- A system of cast-iron strength
- The TenCate fibres don't split, even after intensive use
- A natural 'look and feel'
- UV stability
- Keeps infill more securely in place, allowing fewer irregularities and holes to develop on the pitch
- Ideal for Cruyff Courts and other public playing fields
- Eminently suitable for indoor and outdoor use

Construction

The Edel Soccer XP™ Pro system has been vetted for use with various substrates and infill materials. This enables a customised system to be supplied for every conceivable location.

Base material	: Polyethylene
Type of yarn	: Fibrillated tape

FIFA Preferred Producer for Football Turf

With the 'FIFA Preferred Producer' initiative, FIFA hopes to enforce consistent quality standards for artificial football pitches around the world. Edel Grass also pursues this end and shares in the responsibility for quality assurance.

As a Preferred Producer, Edel Grass is expected to demonstrate its expertise in civil engineering, project management and maintenance.
